

## § FIG 1 · YC BATCH COMPOSITION

**B2B peaked at 69% of a YC batch in 2023.**  
**Industrials has tripled since 2019.**

Share of each batch's companies carrying YC's top-level industry label, Winter 2019 to Fall 2026.

A batch is one group of startups that YC funds together. Each tick is one batch. Dashed lines show the trend, split at ChatGPT. A hollow dot is a batch with under 50 companies, not in the trend.
