

\$ FIG 3 · SEARCH INTEREST

Searches for “gpt” barely registered around GPT-3, then took off after ChatGPT

Google Trends, worldwide web search, monthly, Jan 2019 to Sep 2026. Each row is indexed to its own peak.

Each row is scaled to its own busiest month, which is 100. So the rows show shape, not size. Before 2022, most searches for “llm” were about the law degree.
